Analytical Paragraph

Analytical Paragraph

- An **Analytical Paragraph** is a short piece of writing where you look at given data and explain it in clear, simple words.

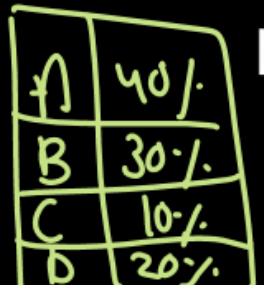

Analytical Paragraph

The data can be given to you in different forms :

- A **Table** (numbers arranged in rows and columns)
- A **Bar Graph** or **Pie Chart** (data shown in visual charts)
- An **Outline** or **Data List** (points and percentages given in text)

Analytical Paragraph

Important Rules to Remember:

- **Word Limit :** Write between 80 to 100 words.
- **No Personal Opinions :** Do not write what you think or like. Only write what the given data shows.
- **Use Simple Tense :** Use Simple Present Tense (shows, depicts, indicates) to describe the chart.

Analytical Paragraph

❖ **Be Clear :** Compare the highest numbers, lowest numbers, and main differences clearly.

For conclusion

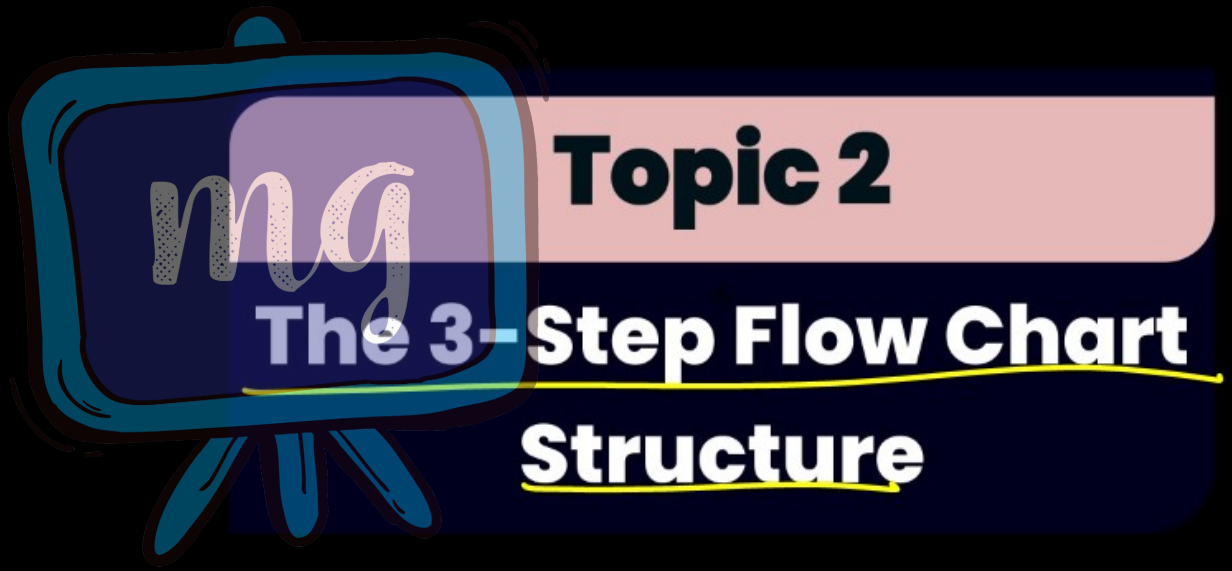

→ Highest

→ Lowest

→ Gap / Difference

Analytical Paragraph

Analytical Paragraph

- Every analytical paragraph must follow a simple 3-part structure.

Look at the flow chart below to understand how to build your paragraph:

Analytical Paragraph

The table shows
The charts shows
The bar graph shows

तुलनात्मक

STEP 1 : INTRODUCTION

Write 1 or 2 sentences stating what the chart/table is about

(copy from question)

STEP 2 : BODY PARAGRAPH

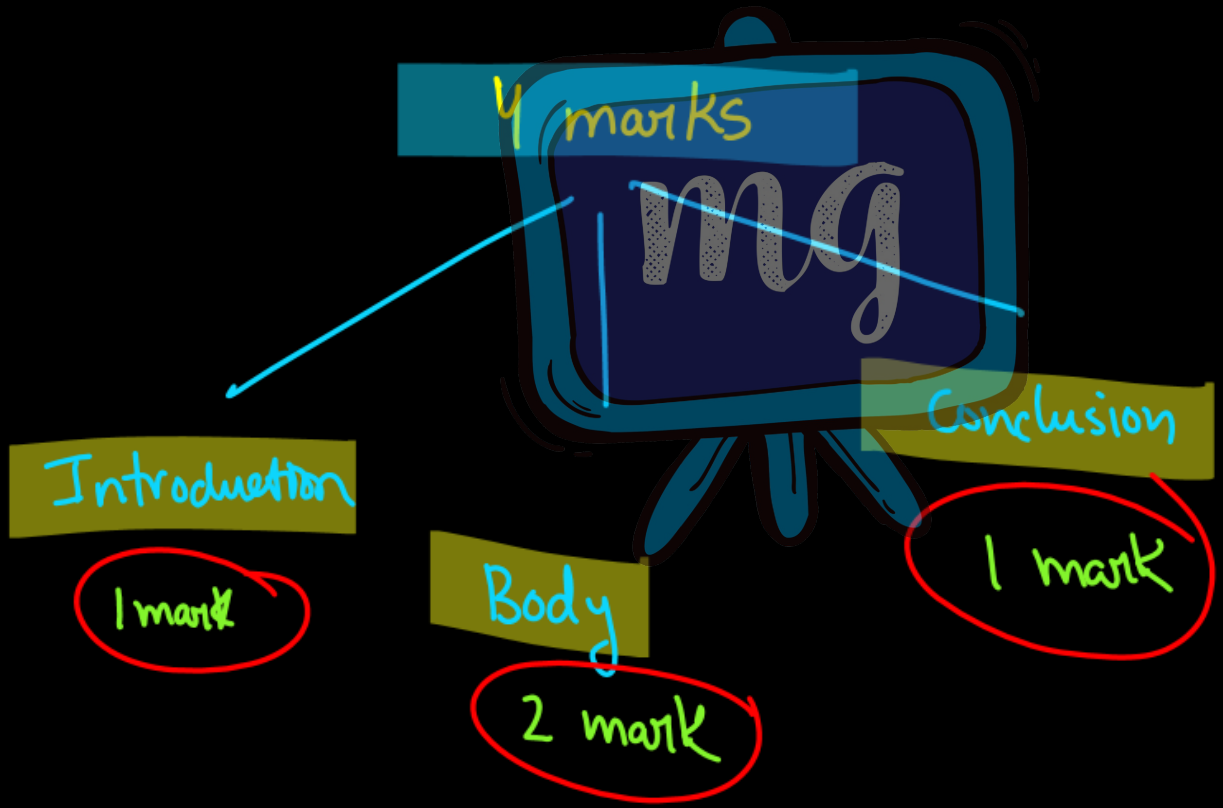

Write 4 to 5 sentences comparing data, highest/lowest points

STEP 3 : CONCLUSION

Write 1 or 2 sentences giving an overall summary (सारांश)

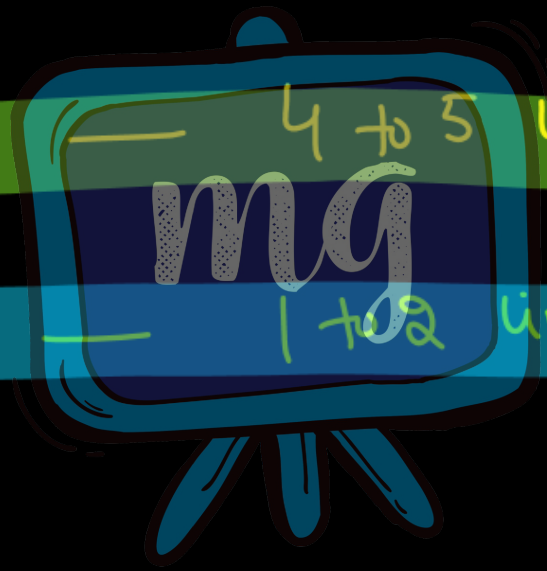

Overall information में highest, lowest and something important

Analytical Paragraph

WRITE

1. Introduction — 1 to 2 lines
2. Body — 4 to 5 lines
3. Conclusion — 1 to 2 lines

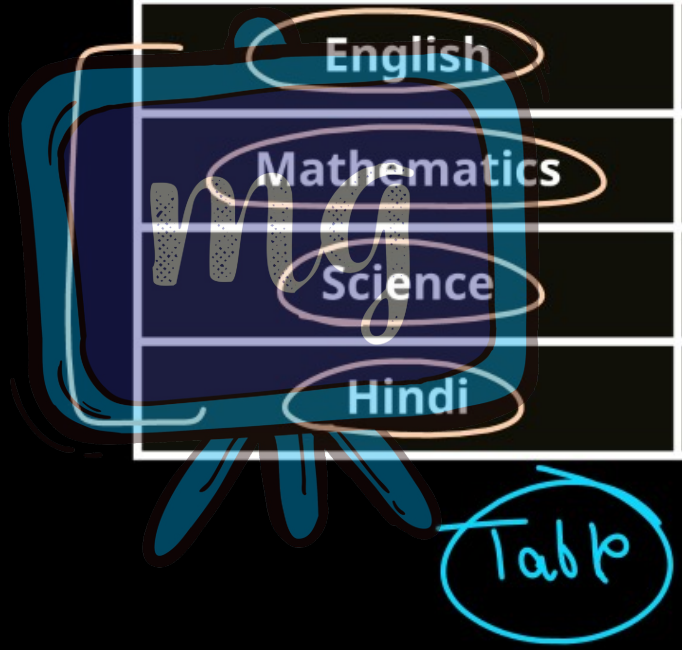

Analytical Paragraph

Example 1: Based on a Data Table (Favorite School Subjects)

Question : Below is a table showing the favorite subjects of 100 students in Class 10. Write an analytical paragraph in about 80–100 words based on the given data.

Analytical Paragraph

Subject	Number of Students
English	40
Mathematics	25
Science	20
Hindi	15

Analytical Paragraph

Written Analytical Paragraph

Title ← **Favorite Subjects of Class 10 Students**

Introduction (Para 1) ← The given table shows information about the favorite subjects of 100 students in Class 10. According to the data, English is the most popular subject among students, with the highest number of 40 students choosing it.

Para 2

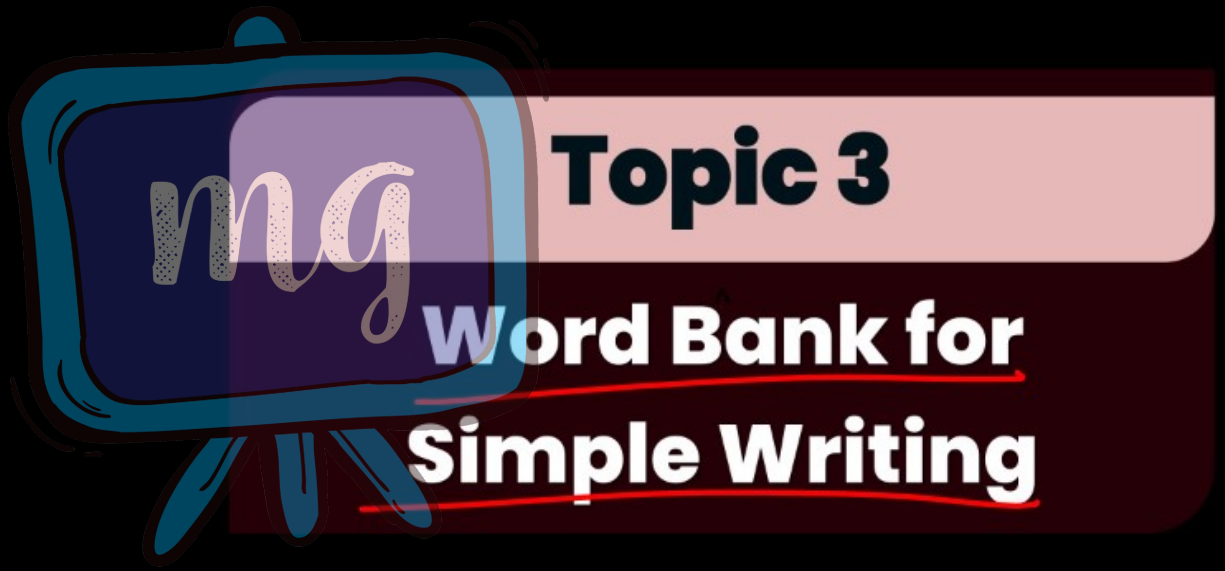

Analytical Paragraph

Para 2 (details)

Mathematics comes second with 25 students. Science is liked by 20 students, which is slightly less than Mathematics. Hindi is the least preferred subject, chosen by only 15 students. Overall, the table clearly shows that language subjects like English are loved the most, while Hindi has the lowest number of students.

Conclusion (Para 3)

Steps to write an AP

1. Copy the question in intro (by changing in Simple Present tense)
2. Analyse data
3. Write the body
4. Make a conclusion

Analytical Paragraph

Written Analytical Paragraph :

Daily Time Schedule of a Student :

The given table provides details about how a student spends 24 hours in a single day. The data shows that the student spends the maximum amount of time sleeping, which is 8 hours. Studying takes up the second largest share of the day with 7 hours spent at school and home.

Analytical Paragraph

The student spends 4 hours watching television and using a mobile phone. Only 3 hours are given to playing and physical exercise. The lowest time, which is 2 hours, is spent on other daily tasks. In conclusion, the student spends most of the day on sleep and study.

Analytical Paragraph

Based on an Outline/Data List (Means of Transport to School) :

Question : Given below is an outline showing how students come to school every day. Write an analytical paragraph in 80–100 words.

- Bicycle : 45% students
- Walking : 30% students
- School Bus : 15% students
- Personal Car/Auto : 10% students

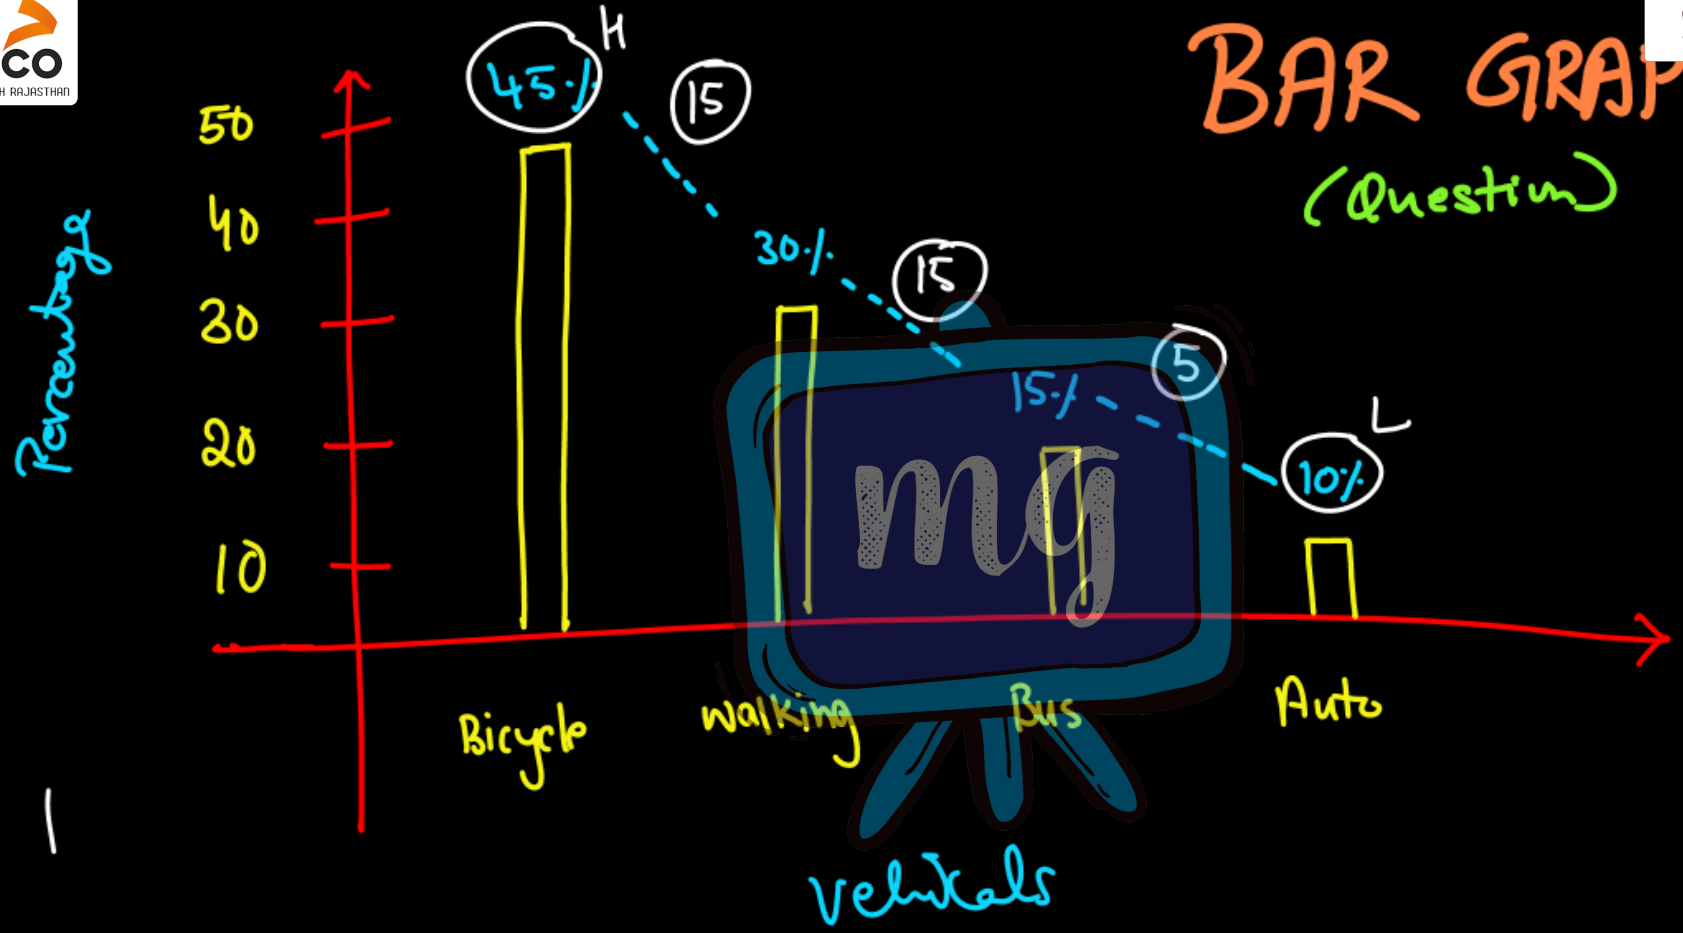

The below bar graph shows the percentage of Students that come to school by different vehicals. Write an AP in 80-100 words.

BAR GRAPH

(Question)

1. bar graph / pie chart

परीक्षा में यह सब मत लिखना ✗

2- Highest — Bicycle

3- Lowest - auto

Highest (45%) — Lowest (10%) = 35%

Analytical Paragraph

परीक्षा में यह लिखना

Written Analytical Paragraph :

Modes of Transport Used by Students :

Intro

The provided data ~~depicts~~ Shows the different modes of transport used by students to travel to school every day. A major portion of students, which is 45%, use bicycles to come to school. Walking is the second most common choice, with 30% of students coming on foot.

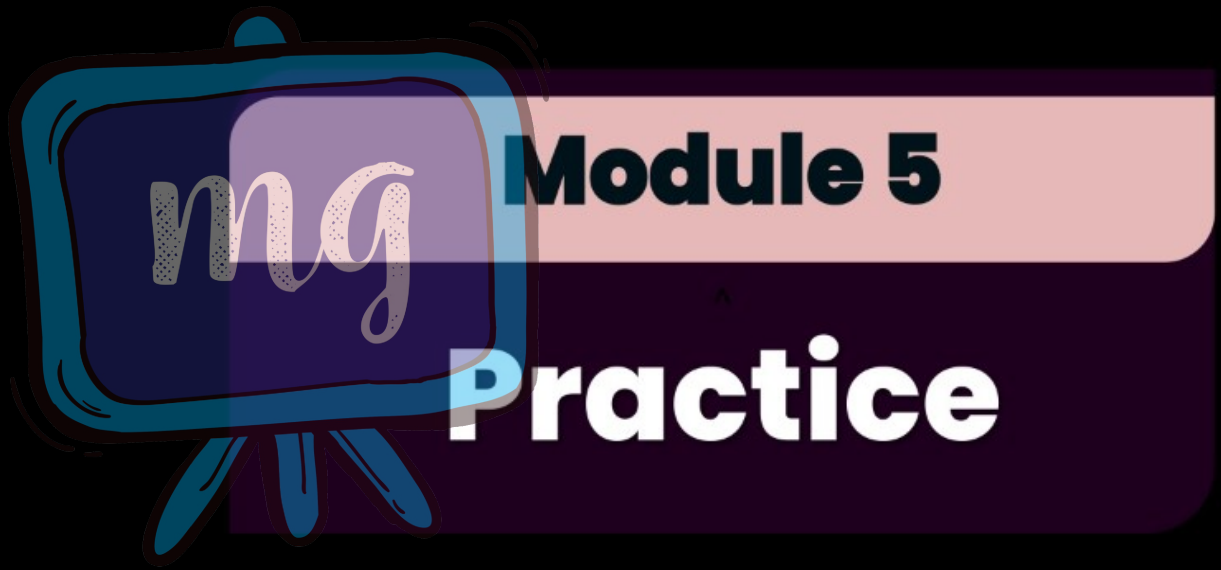

Analytical Paragraph

Body →

School buses are used by 15% of the total students. The lowest number of students, only 10%, come by personal cars or auto-rickshaws. Overall, the data indicates that most students prefer eco-friendly and active ways like cycling and walking to reach their school.

Overall, it can be seen that most students prefer to come to school by bicycle and least number of student come by auto.

Analytical Paragraph

Analytical Paragraph

Exercise 1 : Table-Based Question (Favorite Hobbies) :

Question : Look at the table below showing the hobbies of 100 Class 10 students. Write an analytical paragraph in 80–100 words.

Hobby	Percentage of Students
Reading Books	35%
Playing Sports	40%
Listening to Music	15%
Painting / Drawing	10%

Analytical Paragraph

H.W

Exercise 2 : Outline-Based Question

(Causes of Water Wastage in Houses)

Question : Write an analytical paragraph in 80–100 words using the outline given below about domestic water wastage:

- Leaving taps open while brushing: 40%
- Overflowing water tanks: 30%
- Leaking pipes and taps: 20%
- Washing vehicles with hose pipes: 10%

Analytical Paragraph

Exam में इस तरह नहीं पूछेंगे, यह practice है

Exercise 3 : Fill in the Blanks Practice

(Fill in the blanks using the simple words given in the options to complete the paragraph.)

Options : (lowest, ~~shows~~, conclusion, ~~highest~~, comparison)

The given chart 1. shows the percentage of internet usage by different age groups. The group aged 15 to 25 years has the 2. highest usage at 60%. In 3. comparison to this, people above 60 years have the 4. lowest usage at only 10%. In 5. conclusion, young people use the internet much more than older people.

Analytical Paragraph

Answer Keys for Practice Exercises

Hints & Model Solution for Exercise 1

- Intro : The given table ~~provides~~ shows information about the favorite hobbies of 100 students of Class 10.
- Body : Playing sports is the most popular hobby with 40% of students choosing it.

Analytical Paragraph

Reading books is the second most liked hobby at 35%. Listening to music is enjoyed by 15% of students. Painting or drawing is the least popular hobby, chosen by only 10% of students.

❖ Conclusion : Overall, physical activities and reading are preferred by most students.

Analytical Paragraph

Hints & Model Solution for Exercise 2

- **Intro :** The given data shows the major causes of water wastage in households.
- **Body :** The biggest cause of water wastage is leaving taps open while brushing, which accounts for 40%. Overflowing water tanks cause 30% of total wastage. Leaking pipes and taps contribute to 20% of the wastage.

Analytical Paragraph

Hw

Washing cars and bikes with hose pipes causes the lowest wastage at 10%.

- Conclusion : To sum up, careless daily habits like leaving taps open cause the maximum loss of water at home.
