Answer : Evelyn hears music by sensing the notes in different parts of her body. When Ron Forbes tuned two drums to different notes and asked her to sense the sound without using her ears.

She realized that she could feel the higher drum from the waist up and the lower drum from the waist down.

She learnt how to open her mind and body to sounds and vibrations.

It was sheer determination and hard work.

When she plays the xylophone, she can sense the sound passing up the stick into her fingertips. By leaning against the drums, she can feel the resonances flowing into her body. On a wooden platform, she removes her shoes so that the vibrations can pass through her bare feet and up her legs.
