

CHAPTER-3 | Health: The Ultimate Treasure

QUIZ
PART-07

1. Antibiotics kill:

- A. Viruses
- B. Bacteria
- C. Fungi
- D. Humans (B)

Explanation : They target bacteria.

2. Antibiotics do not work on:

- A. Bacteria
- B. Viruses
- C. Infection
- D. Wound (B)

Explanation : Viruses are unaffected.

3. Misuse leads to:

- A. Immunity
- B. Resistance
- C. Strength
- D. Cure (B)

Explanation : Bacteria become resistant.

4. Antibiotic resistance means:

- A. Medicine stronger
- B. Bacteria survive
- C. Virus dies
- D. No infection (B)

Explanation : Bacteria resist treatment.

5. Alexander Fleming discovered:

- A. Vaccine
- B. Penicillin
- C. TB
- D. Virus (B)

Explanation : First antibiotic.

6. Antibiotics should be used:

- A. Anytime
- B. As prescribed
- C. Without doctor
- D. Daily (B)

Explanation : Proper use prevents resistance.

7. Overuse causes:

- A. Fast recovery
- B. Harder treatment
- C. Immunity
- D. Height (B)

Explanation : Resistant infections harder to treat.

8. Traditional medicine includes:

- A. Ayurveda
- B. Siddha
- C. Unani
- D. All (D)

Explanation : All are traditional systems.

9. Antibiotics target:

- A. Human cells
- B. Bacterial cells
- C. Virus
- D. Blood (B)

Explanation : They attack bacteria.

10. Correct dose and duration:

- A. Important
- B. Not needed
- C. Optional
- D. Harmful (A)

Explanation : Prevents resistance.
