

CHAPTER-1 | LARGE NUMBERS AROUND US

QUIZ
PART-12

1. "One crore one lakh one thousand ten" in Indian place value notation is:
- A. 1,01,10,010 B. 1,01,01,010
C. 1,10,01,010 D. 1,00,01,010 (B)

Explanation: One crore = 1,00,00,000; one lakh = 1,00,000; one thousand = 1,000; ten = 10. Total = 1,01,01,010.

2. "One billion one million one thousand one" in Indian place value notation is:
- A. 1,00,01,10,001
B. 10,00,10,01,001
C. 1,00,10,01,001
D. 1,10,00,01,001 (C)

Explanation: One billion = 100 crore, one million = 10 lakh, one thousand = 1,000, one = 1. So the number is 1,00,10,01,001.

3. "Ten crore twenty lakh thirty thousand forty" is written as:
- A. 10,02,30,040 B. 10,20,30,040
C. 1,20,30,040 D. 10,20,03,040 (B)

Explanation: Ten crore + twenty lakh + thirty thousand + forty = 10,20,30,040.

4. "Nine billion eighty million seven hundred thousand six hundred" is:
- A. 9,80,07,00,600
B. 9,08,70,00,600
C. 9,08,07,00,600
D. 90,08,07,00,600 (C)

Explanation: 9 billion = 900 crore, 80 million = 8 crore, 700 thousand = 7 lakh, and 600 = 600. So it is 9,08,07,00,600.

5. 30 thousand _____ 3 lakhs
- A. < B. >
C. = D. None (A)

Explanation: 30 thousand = 30,000 and 3 lakhs = 3,00,000. So 30,000 < 3,00,000.

6. 500 lakhs _____ 5 million
- A. <
B. >
C. =
D. Cannot compare (B)

Explanation: 500 lakhs = 50,000,000 and 5 million = 5,000,000. So 500 lakhs > 5 million.

7. 800 thousand _____ 8 million
- A. > B. =
C. < D. None (C)

Explanation: 800 thousand = 800,000 and 8 million = 8,000,000. So 800 thousand < 8 million.

8. 640 crore _____ 60 billion
- A. >
B. <
C. =
D. Cannot compare (B)

Explanation: 100 crore = 1 billion, so 640 crore = 6.4 billion. Hence 640 crore < 60 billion.

9. Which of the following equals 1 billion?
- A. 10 crore
B. 100 crore
C. 1 lakh
D. 10 lakh (B)

Explanation: The chapter states that 100 crore = 1 billion.

10. Which of the following equals 1 million?
- A. 1 lakh
B. 100 lakh
C. 10 lakh
D. 1 crore (C)

Explanation: The chapter shows that 10 lakh = 1 million.
