

Chapter – 14 | Economic Activities Around Us

QUIZ
PART-01

1. Which of the following activities belongs to the primary sector?
- A. Teaching in a school
 - B. Manufacturing mobile phones
 - C. Cultivating grains
 - D. Repairing machines (C)

Explanation: Cultivating grains involves direct use of natural resources, which is a characteristic of the primary sector.

2. What is the main characteristic of secondary sector activities?
- A. Collection of raw materials
 - B. Provision of professional services
 - C. Transformation of raw materials into finished products
 - D. Teaching students (C)

Explanation: Secondary sector activities involve processing raw materials from the primary sector to make goods.

3. Which of the following is an example of a tertiary sector activity?
- A. Mining
 - B. Agriculture
 - C. Construction
 - D. Teaching (D)

Explanation: Teaching is a service that supports other sectors and is classified under the tertiary sector.

4. Which activity falls under the secondary sector?
- A. Collecting wood from forests
 - B. Processing groundnuts into oil
 - C. Teaching in schools
 - D. Driving vehicles (B)

Explanation: Processing groundnuts into oil transforms raw material into a consumable product, a feature of the secondary sector.

5. What is the function of the tertiary sector?
- A. Manufacturing goods
 - B. Extracting raw materials
 - C. Providing services that support other sectors
 - D. Raising livestock (C)

Explanation: The tertiary sector offers services such as transport, communication, and healthcare that support economic activities.

6. Which of the following is not part of the primary sector?
- A. Fishing
 - B. Forestry
 - C. Manufacturing furniture
 - D. Mining (C)

Explanation: Manufacturing furniture involves processing raw materials and is part of the secondary sector, not primary.

7. What does the primary sector rely on?
- A. Warehousing
 - B. Skilled labor
 - C. Direct extraction from nature
 - D. Automated services (C)

Explanation: The primary sector is dependent on natural resources like soil, water, and minerals for economic output.

8. What sector does software development belong to?
- A. Primary sector
 - B. Secondary sector
 - C. Tertiary sector
 - D. Informal sector (C)

Explanation: Software development is a service-based activity, part of the tertiary sector.

9. Which of the following would be an example of a utility service in the secondary sector?
- A. Teaching in a school
 - B. Producing electricity
 - C. Selling groceries
 - D. Harvesting wheat (B)

Explanation: Producing electricity is considered a utility that transforms raw sources into consumable energy.

10. What is the purpose of warehouses in economic activity?
- A. To manufacture goods
 - B. To process raw materials
 - C. To store products before they are used, sold, or rented
 - D. To provide communication services (C)

Explanation: Warehouses are large storage buildings used to hold goods before they reach the market or end-user.
