

## Chapter – 6 | Evolution

### QUIZ PART-07

1. Dryopithecus and Ramapithecus lived approximately:

A. 2 million years ago  
B. 15 million years ago  
C. 100,000 years ago  
D. 65 million years ago (B)

**Explanation :** Dryopithecus and Ramapithecus were primates that lived about 15 million years ago.

2. Ramapithecus was considered more:

A. Bird-like  
B. Human-like  
C. Reptile-like  
D. Fish-like (B)

**Explanation :** Ramapithecus showed more human-like characteristics, while Dryopithecus was more ape-like.

3. Human-like primates walked in East Africa approximately:

A. 3–4 million years ago  
B. 15 million years ago  
C. 100,000 years ago  
D. 10,000 years ago (A)

**Explanation :** Fossil evidence suggests that human-like primates walked upright in East Africa about 3–4 million years ago.

4. Australopithecines are considered:

A. Modern humans  
B. Early humans  
C. Reptiles  
D. Mammals (B)

**Explanation :** Australopithecines were early human ancestors that lived around 2 million years ago.

5. Homo habilis had a brain capacity of:

A. 400–500 cc  
B. 650–800 cc  
C. 900 cc  
D. 1400 cc (B)

**Explanation :** Homo habilis had a brain capacity of approximately 650–800 cc.

6. Homo erectus fossils were discovered in:

A. Ethiopia  
B. Tanzania  
C. Java  
D. South Africa (C)

**Explanation :** Fossils of Homo erectus were discovered in Java in 1891.

7. Homo erectus had a brain capacity of approximately:

A. 650 cc  
B. 800 cc  
C. 900 cc  
D. 1400 cc (C)

**Explanation :** Homo erectus had a larger brain with a cranial capacity of about 900 cc.

8. Neanderthal humans lived approximately:

A. 100,000–40,000 years ago  
B. 2 million years ago  
C. 15 million years ago  
D. 10,000 years ago (A)

**Explanation :** Neanderthals lived between about 100,000 and 40,000 years ago in East and Central Asia.

9. Homo sapiens emerged during:

A. Jurassic period  
B. Ice Age  
C. Carboniferous period  
D. Cambrian period (B)

**Explanation :** Homo sapiens emerged during the Ice Age, between approximately 75,000 and 10,000 years ago.

10. Prehistoric cave paintings were created approximately:

A. 100,000 years ago  
B. 65,000 years ago  
C. 18,000 years ago  
D. 2,000 years ago (C)

**Explanation :** Prehistoric cave paintings were created approximately 18,000 years ago.
