

CHAPTER-5 | Natural Vegetation And Wildlife

**QUIZ
PART-02**

1. Tropical Evergreen Forests receive rainfall of more than:
- A. 100 cm
 - B. 150 cm
 - C. 200 cm
 - D. 250 cm (C)

Explanation: Tropical Evergreen Forests receive more than 200 cm of rainfall.

2. Tropical Evergreen Forests have trees that can grow up to:
- A. 30 metres
 - B. 40 metres
 - C. 50 metres
 - D. 60 metres or more (D)

Explanation: These trees can grow up to 60 meters or more in height.

3. Tropical Evergreen Forests are found in:
- A. Western Ghats
 - B. Rajasthan
 - C. Deccan Plateau
 - D. Punjab (A)

Explanation: These forests are found in the Western Ghats, Lakshadweep, and parts of Assam.

4. Which of the following is a commercially important tree in Tropical Evergreen Forests?
- A. Oak
 - B. Mahogany
 - C. Pine
 - D. Cedar (B)

Explanation: Mahogany is one of the important commercially valuable trees in these forests.

5. The most widespread forest type in India is:
- A. Tropical Evergreen Forests
 - B. Tropical Deciduous Forests
 - C. Mangrove Forests
 - D. Montane Forests (B)

Explanation: Tropical Deciduous Forests are the most widespread in India.

6. Tropical Deciduous Forests are also called:
- A. Rainforests
 - B. Monsoon forests
 - C. Temperate forests
 - D. Alpine forests (B)

Explanation: These forests are also called monsoon forests.

7. Which of the following is a feature of Moist Deciduous Forests?
- A. Trees do not shed leaves
 - B. Found in areas with less than 50 cm rainfall
 - C. Trees shed leaves during dry summers
 - D. Trees grow only in coastal areas (C)

Explanation: Moist Deciduous Forests shed their leaves during the dry summer months.

8. Dry Deciduous Forests are found in regions with rainfall between:
- A. 50 cm and 100 cm
 - B. 100 cm and 200 cm
 - C. 200 cm and 400 cm
 - D. Less than 50 cm (A)

Explanation: Dry Deciduous Forests are found in areas with rainfall between 70 cm and 100 cm.

9. Which tree is commonly found in Dry Deciduous Forests?
- A. Teak
 - B. Bamboo
 - C. Oak
 - D. Mahogany (A)

Explanation: Teak is commonly found in Dry Deciduous Forests.

10. Common animals in the Tropical Evergreen Forests include:
- A. Lion, Tiger, Elephant
 - B. Deer, Bear, Pig
 - C. Elephant, Monkey, Lemur
 - D. Wolf, Fox, Deer (C)

Explanation: Common animals include Elephant, Monkey, and Lemur.
