

CHAPTER-1 | LARGE NUMBERS AROUND US

QUIZ
PART-13

1. What does an approximate value mean?

- A. A value that is exact in all cases
- B. A value close to the actual number
- C. A wrong value
- D. A negative value (B)

Explanation: An approximate value is not exact, but it is close enough to give an idea of the quantity.

2. In the chapter, 1 lakh people visited the book fair is an example of:

- A. Exact value
- B. Approximate value
- C. Small number
- D. Decimal number (B)

Explanation: The chapter shows that large counts are often told in a rounded or approximate form like 1 lakh.

3. If one person had not gone, the number of visitors would be:

- A. 1,00,000
- B. 99,999
- C. 1,00,001
- D. 90,999 (B)

Explanation: The page says that without one person, it would have been written as 99,999.

4. The population 76,068 is said to be about:

- A. 70,000
- B. 75,000
- C. 76,000
- D. 80,000 (B)

Explanation: The chapter gives this exact example and says 76,068 can be stated as about 75,000.

5. When the approximated number is more than the actual number, it is called:

- A. Round down
- B. Exact counting
- C. Round up
- D. Subtraction (C)

Explanation: Round up means choosing a value greater than the actual number.

6. A school has 732 people. The principal may order:

- A. 700 sweets
- B. 720 sweets
- C. 750 sweets
- D. 650 sweets (C)

Explanation: The chapter says the principal may order 750 sweets so that there are enough for everyone.

7. When the approximated number is less than the actual number, it is called:

- A. Round down
- B. Round up
- C. Exact value
- D. Expanded form (A)

Explanation: Round down means choosing a value smaller than the actual number.

8. If the cost of an item is ₹470, the shopkeeper may say it is around:

- A. ₹500
- B. ₹480
- C. ₹450
- D. ₹400 (C)

Explanation: The chapter gives this example for rounding down: ₹470 may be said as around ₹450.

9. Which of these situations needs an exact number?

- A. Telling a rough crowd size
- B. Giving an emergency helpline number
- C. Estimating fair visitors
- D. Telling about town population roughly (B)

Explanation: Emergency numbers must be exact. A rounded number would be dangerous or useless.

10. Which number is the railway enquiry number shown in the chapter?

- A. 108
- B. 112
- C. 101
- D. 139 (D)

Explanation: The chapter lists Railway enquiry – 139.
