

## CHAPTER-11 | Nature's Treasures

QUIZ  
PART-05

1. A resource obtained from nature is called:

- A. Human-made resource
- B. Natural resource
- C. Waste material
- D. Plastic resource (B)

**Explanation :** Things taken directly from nature are natural resources.

2. Which is a natural resource?

- A. Machine
- B. Furniture
- C. Air
- D. Vehicle (C)

**Explanation :** Air is given by nature, not made by humans.

3. Which is a renewable resource?

- A. Coal
- B. Petroleum
- C. Solar energy
- D. Natural gas (C)

**Explanation :** Solar energy keeps coming from the Sun and can be used again.

4. Non-renewable resources are found in:

- A. Unlimited quantity
- B. Limited quantity
- C. Air only
- D. Plants only (B)

**Explanation :** Non-renewable resources are limited and can get exhausted.

5. Which is a non-renewable resource?

- A. Wind
- B. Water
- C. Coal
- D. Forest (C)

**Explanation :** Coal takes a very long time to form and cannot be replaced quickly.

6. Which is a human-made resource?

- A. Soil
- B. Water
- C. Vehicle
- D. Air (C)

**Explanation :** Vehicles are made by humans using natural resources.

7. Furniture is called human-made because it is:

- A. Found in mountains
- B. Made by humans from wood
- C. Grown in forests
- D. Present in air (B)

**Explanation :** Humans make furniture by using natural materials like wood.

8. Conservation of resources means:

- A. Wasting them
- B. Saving and protecting them
- C. Ignoring them
- D. Burning them (B)

**Explanation :** Conservation means careful use so resources last longer.

9. Which daily activity uses natural resources?

- A. Breathing air
- B. Holding plastic only
- C. Sleeping on a bed only
- D. Reading a wall (A)

**Explanation :** Breathing uses air, which is a natural resource.

10. Renewable resources can still be harmed by:

- A. Careful use
- B. Pollution and damage
- C. Rainfall
- D. Sunlight (B)

**Explanation :** Even renewable resources must be protected from misuse and pollution.
