

## CHAPTER-6 | Population

### QUIZ PART-02

1. Population is dynamic because:

- A. It remains constant
- B. It changes over time
- C. It only increases
- D. It only decreases (B)

*Explanation:* Population changes over time due to various factors.

2. Population growth is influenced by:

- A. Births, deaths, and migration
- B. Only births
- C. Only migration
- D. Only deaths (A)

*Explanation:* Births, deaths, and migration affect population growth.

3. Population growth can be expressed by:

- A. Absolute increase only
- B. Percentage increase only
- C. Both
- D. None (C)

*Explanation:* Both absolute and percentage growth are used to measure population.

4. Absolute population increase is calculated by:

- A. Subtracting the last year's population
- B. Percentage change
- C. Adding migration
- D. Dividing rates (A)

*Explanation:* Absolute increase = current population - previous population.

5. India's population increase from 1951 to 2011 is:

- A. 849 million
- B. 851 million
- C. 850 million
- D. 861 million (A)

*Explanation:* The absolute increase from 1951 to 2011 is 849 million.

6. A 2% growth rate means:

- A. 2% annual increase
- B. Population triples
- C. No change
- D. Equal birth and death rates (A)

*Explanation:* A 2% growth rate means the population increases by 2% every year.

7. Absolute increase in population from 1951 to 1961 is:

- A. 78.15 million
- B. 42.43 million
- C. 108.92 million
- D. 135.17 million (A)

*Explanation:* 439.2 million - 361 million = 78.15 million.

8. India's growth rate from 1951 to 1981 was:

- A. Steadily increasing
- B. Decreasing
- C. Stable
- D. Fluctuating (A)

*Explanation:* The growth rate steadily increased during this period.

9. India's population in 2011 was:

- A. 1028.7 million
- B. 846.4 million
- C. 1210.6 million
- D. 883.3 million (C)

*Explanation:* India's population in 2011 was 1210.6 million.

10. India's population rises despite a declining growth rate due to:

- A. Low birth rates
- B. High death rates
- C. Large population base
- D. Increased migration (C)

*Explanation:* A large population base leads to continued growth.
