

CHAPTER-1 | The Fun They Had

QUIZ-01

1. What event does Margie write about in her diary?
- Tommy introducing her to a robotic teacher
 - Tommy finding a real book
 - Her mechanical teacher malfunctioning
 - Learning about virtual classrooms (B)

Explanation: Margie writes in her diary about Tommy finding a real, old-fashioned printed book, which was unusual in their futuristic world.

2. Why did Margie dislike her school more than ever recently?
- Her geography tests were too easy.
 - The County Inspector was rude.
 - She was performing poorly in geography.
 - She had to study during weekends. (C)

Explanation: Margie disliked her school because she was struggling with geography, and her mechanical teacher was giving her frequent tests.

3. How did the County Inspector resolve Margie's issue with her mechanical teacher?
- He replaced the entire machine.
 - He adjusted the geography sector.
 - He gave her a manual for guidance.
 - He assigned her a human tutor. (B)

Explanation: The County Inspector slowed down the geography sector to a ten-year-old's level, ensuring Margie could understand the lessons better.

4. What was unusual about the book that Tommy found?
- The text was in an unknown language.
 - The words moved on the page.
 - The pages were yellow and crinkly.
 - It required a punch code to read. (C)

Explanation: Margie and Tommy found it strange that the book had yellow, crinkly pages and static text instead of the moving text they were used to.

5. According to Tommy, how did schools of the past differ from their schools?
- Teachers were robots.
 - Classes were conducted at home.
 - Schools had buildings and human teachers.
 - Lessons were taught only through books. (C)

Explanation: Tommy explained that in the past, children went to a common school building and learned from human teachers.

6. Why did Margie's mother insist on her having regular school hours?
- To match Tommy's schedule
 - To ensure effective learning
 - To reduce the teacher's workload
 - To maintain the teacher's system settings (B)

Explanation: Margie's mother believed that little girls learned better if they followed a consistent schedule for their studies.

7. What was Margie's reaction to the County Inspector fixing her teacher?
- She was disappointed.
 - She was relieved.
 - She was curious about the process.
 - She was indifferent. (A)

Explanation: Margie was disappointed because she had hoped the mechanical teacher would be taken away permanently.

8. What did Margie find fascinating about the old schools?
- The advanced technology they used
 - The variety of subjects taught
 - Children studying together in a schoolyard
 - The strict discipline enforced by human teachers (C)

Explanation: Margie was intrigued by the idea of children gathering in a schoolyard, laughing, playing, and learning together.

9. What did Tommy mean by "It wasn't a regular teacher. It was a man"?
- Teachers in the past were men only.
 - Teachers in the past were not mechanical.
 - Past teachers did not follow a schedule.
 - Human teachers were inferior to robots. (B)

Explanation: Tommy clarified that in the past, teachers were human beings rather than mechanical systems like the ones they had.

10. Why does Margie think the old schools must have been fun?
- They allowed children to learn at their own pace.
 - Children could play and interact while learning.
 - Teachers were more knowledgeable than robots.
 - Lessons were easier than in her current school. (B)

Explanation: Margie imagined the fun of children learning together, helping one another, and enjoying a communal environment in old schools.
