

CHAPTER-2 | IS MATTER AROUND US PURE

QUIZ
PART-01

1. Mixture has:

- A. One substance
- B. Two+ substances
- C. Only elements
- D. Only compounds (B)

Explanation: Two or more substances.

2. Components are:

- A. Chemical
- B. Physical (B)
- C. Nuclear
- D. Fixed

Explanation: Physically mixed.

3. Separation by:

- A. Chemical
- B. Physical (B)
- C. Burning
- D. Heating only

Explanation: Physical methods.

4. Properties in mixture:

- A. Change
- B. Same (B)
- C. Destroyed
- D. Lost

Explanation: Remain same.

5. Sugar solution is:

- A. Element
- B. Compound
- C. Mixture (C)
- D. Pure

Explanation: Physical mix.

6. Homogeneous =

- A. Uniform (A)
- B. Layers
- C. Different
- D. Separate

Explanation: Same throughout.

7. Heterogeneous =

- A. Uniform
- B. Non-uniform (B)
- C. Pure
- D. Fixed

Explanation: Different parts.

8. Filtered tea is:

- A. Element
- B. Compound (C)
- C. Homogeneous
- D. Heterogeneous

Explanation: Uniform

9. Soil is:

- A. Homogeneous
- B. Heterogeneous (B)
- C. Pure
- D. Element

Explanation: Visible parts.

10. Homogeneous example:

- A. Sand+water
- B. Oil+water
- C. Air (C)
- D. Iron+sulphur

Explanation: Uniform mix.
