

CHAPTER-6 | Mijbil the Otter

QUIZ
PART-01

1. Where did Gavin Maxwell live when this story begins?
A. Dublin, Ireland
B. Camusfearna in the West Highlands of Scotland
C. London, England
D. Cardiff, Wales (B)

Explanation: He lived in a cottage at Camusfearna in Scotland's West Highlands.

2. Why did Maxwell avoid getting another dog at first?
A. He couldn't afford one
B. He was allergic to dogs
C. He was too sad after his dog Jonnie died
D. He preferred wild animals (C)

Explanation: Jonnie's death left him too sorrowful to consider keeping a dog again.

3. What key idea does the SPCA stress about owning a pet?
A. It should be a short-term trial
B. It is a lifetime commitment involving considerable responsibility
C. It is easy if the pet is small
D. It requires no planning if bought from a shop (B)

Explanation: Pet ownership is described as a long-term commitment with serious responsibilities.

4. Who should decide whether to acquire a pet?
A. The youngest child
B. The pet shop owner
C. The whole family with full agreement
D. The school teacher (C)

Explanation: The decision should be made by the entire family; without agreement the pet may become unwanted.

5. Which of the following is listed as a basic requirement for dogs?
A. Annual licence in line with regulations
B. Weekly photo updates
C. Designer accessories
D. Microchipping and GPS tracking (A)

Explanation: An annual dog licence, along with vaccinations and training, is specifically mentioned.

6. Which practice is called out as wrong in the guidance?
A. Early morning walks
B. Keeping dogs confined or tied to stop garden messes or chewing
C. Feeding a balanced diet
D. Regular grooming (B)

Explanation: Confining or tying dogs for such reasons is criticized; socialisation is emphasised instead.

7. What everyday needs are highlighted for pets?
A. Daily exercise, affection and play
B. Weekly grooming only
C. Monthly veterinary checks only
D. Seasonal training classes (A)

Explanation: Pets need consistent exercise, affection, and play every day.

8. Where are otters found in large numbers, as noted in the background?
A. The deltas of Egypt
B. The marshes near Basra in Iraq
C. The fjords of Norway
D. The lagoons of Venice (B)

Explanation: Otters are said to be plentiful in the marshlands around Basra.

9. Which statement about Iraq's climate and geography is correct?
A. It is entirely mountainous with heavy year-round snow
B. It has broad plains and southern marshes; mountain snowfall melts to cause spring floods
C. It has a tropical rainforest climate throughout
D. It has cold summers and hot winters (B)

Explanation: Iraq has plains and marshes; mountain areas get heavy snow, and meltwater causes floods in central and southern regions.

10. Which set correctly matches London's climate facts?
A. Hot desert; warmest January; driest July
B. Tropical wet; warmest May; driest December
C. Temperate with regular light rain/snow; warmest July; coolest January; driest February
D. Polar; warmest March; coolest November; driest April (C)

Explanation: London is temperate with steady light precipitation; July is warmest, January coolest, and February the driest month.
