

CHAPTER-5 | Natural Vegetation And Wildlife

QUIZ
PART-05

1. A major reason for ecosystem disturbance is:

- A. Balanced use
- B. Excessive exploitation
- C. Less population
- D. Increased wildlife (B)

Explanation: Over-exploitation disrupts ecosystems.

2. How many biosphere reserves are in the World Network in India?

- A. 10
- B. 12
- C. 15
- D. 18 (D)

Explanation: India has 18 biosphere reserves in the network.

3. The aim of Project Tiger is:

- A. Increase human population
- B. Conserve tiger habitat
- C. Introduce new tiger species
- D. Relocate tigers (B)

Explanation: Project Tiger conserves tiger habitats.

4. A factor causing ecological imbalance is:

- A. Balanced hunting
- B. Pollution
- C. Environmental protection
- D. None (B)

Explanation: Pollution leads to ecosystem imbalance.

5. The government protects wildlife by creating:

- A. National Parks
- B. Biosphere Reserves
- C. Wildlife Sanctuaries
- D. All of the above (D)

Explanation: All of these are used for wildlife protection.

6. Which is NOT a biosphere reserve in India?

- A. Sundarbans
- B. Nanda Devi
- C. Pacific Ocean
- D. Gulf of Mannar (C)

Explanation: The Pacific Ocean is not a biosphere reserve in India.

7. Which is part of the World Network of Biosphere Reserves?

- A. Sundarbans
- B. Gulf of Mannar
- C. Nanda Devi
- D. All (D)

Explanation: All these reserves are part of the network.

8. The government supports:

- A. Wildlife sanctuaries
- B. Eco-projects
- C. Industrial projects
- D. Mining (B)

Explanation: The government supports eco-development projects.

9. India has how many National Parks?

- A. 100
- B. 106
- C. 573
- D. 18 (B)

Explanation: India has 106 National Parks.

10. Conservation efforts aim to:

- A. Increase human population
- B. Prevent ecosystem damage
- C. Promote industries
- D. Reduce wildlife (B)

Explanation: The goal is to prevent further ecological damage.
