

- Which is the main suggestion to tackle unemployment in agriculture?  
A. Expanding irrigation and promoting multiple cropping  
B. Encouraging workers to migrate abroad  
C. Reducing investment in rural areas  
D. Shifting all workers to industries (A)

**Explanation :** Expanding irrigation and multiple cropping generate year-round agricultural employment.

- What type of unemployment is reduced by encouraging rural non-farm employment?  
A. Frictional unemployment  
B. Seasonal and disguised unemployment  
C. Cyclical unemployment  
D. Structural unemployment (D)

**Explanation :** Non-farm jobs reduce disguised and seasonal unemployment by engaging surplus rural workers.

- Which policy is emphasized for generating large-scale employment in industries?  
A. Importing more foreign goods  
B. Expanding labour-intensive industries  
C. Promoting only capital-intensive industries  
D. Reducing vocational training (B)

**Explanation :** Labour-intensive industries absorb more workers, tackling industrial unemployment.

- Which educational reform is suggested to reduce educated unemployment?  
A. Making education free for all  
B. Focusing on vocational and skill-based courses  
C. Increasing only the number of universities  
D. Introducing longer degree programs (B)

**Explanation :** Job-oriented, vocational training aligns education with employment opportunities.

- Why is promotion of small-scale and cottage industries considered important?  
A. They require heavy capital investment  
B. They provide self-employment and use local resources  
C. They focus only on exports  
D. They discourage rural employment (B)

**Explanation :** Small-scale and cottage industries create self-employment, especially in rural areas.

- Which government scheme guarantees 100 days of employment in rural areas?

A. Start-up India                      B. MGNREGA  
C. Make in India                      D. Digital India (B)

**Explanation :** MGNREGA provides at least 100 days of guaranteed wage employment to rural households.

- Which measure is suggested to reduce unemployment caused by low investment?  
A. Reducing savings rates  
B. Encouraging foreign travel  
C. Promoting higher savings and capital formation  
D. Limiting credit access (C)

**Explanation :** Higher savings and investment boost production and employment opportunities.

- How does promoting rural infrastructure help reduce unemployment?  
A. It creates demand for imported goods  
B. It increases migration to urban areas  
C. It supports agriculture and local industries, creating jobs  
D. It reduces the role of farmers (C)

**Explanation :** Infrastructure such as roads, irrigation, and electricity generates jobs and supports rural livelihoods.

- Which type of industries should be promoted to absorb more workers with limited skills?  
A. Knowledge-based industries  
B. Labour-intensive industries  
C. Capital-intensive industries  
D. Foreign-owned industries only (B)

**Explanation :** Labour-intensive industries employ more workers even with limited capital and skills.

- Which strategy links education directly with employment creation?  
A. More degree-focused universities  
B. Vocationalization of education  
C. Free higher education for all  
D. Eliminating technical training (B)

**Explanation :** Vocationalization of education ensures skill development that leads directly to job opportunities.
